

AHMED ASHRAF

Junior .NET Developer

Cairo, Egypt | 01201820957 | ahmedashraf2413@gmail.com | LinkedIn | GitHub | Portfolio

Military Service: Completed

PROFESSIONAL SUMMARY

Junior .NET Developer with hands-on experience building RESTful APIs using ASP.NET Core, C#, and SQL Server across internship and academic projects. Skilled in Clean Architecture, Dependency Injection, Entity Framework Core, JWT Authentication, and Unit Testing, with a strong foundation in OOP, Data Structures, and SOLID design principles. Bachelor's degree in Computer Science and Artificial Intelligence from Helwan University.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET Core, ASP.NET Core, ASP.NET Core Web API, LINQ, HTML, CSS, JavaScript

Databases: SQL Server, SQLite, Entity Framework (EF) Core, EF Core Migrations

API & Security: RESTful APIs, JWT Authentication, ASP.NET Identity, Role-Based Access Control (RBAC)

Architecture & Design: Clean Architecture, MVC, SOLID Principles, Design Patterns, Dependency Injection, Repository Pattern, Unit of Work, DTOs

Tools & Practices: Git, GitHub, Unit Testing, Object-Oriented Programming (OOP), Data Structures & Algorithms, Responsive Design

PROFESSIONAL EXPERIENCE

IT Support Specialist (During Military Service) | Egyptian Armed Forces — Cairo, Egypt 06/2025 – 03/2026

- Provided troubleshooting and maintenance support for hardware, software, and network systems for internal staff and departments.
- Installed, configured, and managed IT systems, devices, and network infrastructure to maintain operational uptime.

.NET Development Intern | Digital Hub (Remote) — Cairo, Egypt 12/2024 – 02/2025

- Built CRUD operations for core application modules using Entity Framework Core Migrations.
- Implemented the Repository Pattern and Unit of Work in the data access layer, improving code maintainability and testability across the codebase.

Backend Developer Intern | Tech Solutions Egypt — Cairo, Egypt 07/2024 – 10/2024

- Developed RESTful APIs using ASP.NET Core for an internal HR system, optimizing SQL Server queries and stored procedures to improve response times.
- Implemented JWT authentication with role-based access control (RBAC), securing multiple API endpoints against unauthorized access.

PROJECTS

Egyptian Landmarks App — Graduation Project, Grade: A+

- Developed a cross-platform application combining AI-based image classification with a Retrieval-Augmented Generation (RAG) chatbot for landmark Q&A.
- Built scalable RESTful APIs and a vector search system using FAISS for semantic retrieval, integrating a multi-modal transfer learning model for image understanding.

DevOpsBoard Task Management System — ASP.NET Core Web API

- Engineered secure RESTful APIs with role-based access control (RBAC) and JWT authentication for a task management platform.
- Managed database schema migrations and implemented a robust file attachment system for task-related documents.

Graphics Package Algorithms — Desktop Application

- Built a desktop application demonstrating core computer graphics algorithms for 2D shape drawing and geometric transformations.

EDUCATION

Bachelor of Science in Computer Science and Artificial Intelligence

Helwan University — Cairo, Egypt | 09/2020 – 05/2024

Graduation Project Grade: A+

Front-End Web Developer Nanodegree — "Freelance Fast Forward (3Fs)"

Udacity — Tech Savvy Badge | 09/2024 – 12/2024

LANGUAGES

Arabic — Native | English — B2 (Upper Intermediate)
